

# Smartgrowth 4 - OS

Monthly Factsheet as at 31 October 2018

## Objective, Philosophy and Strategy

**Objective** - To achieve a consistent total return for a given risk profile over the longer term with a focus on preserving capital as well as maximising performance; suitable for clients prepared to invest for a minimum of 5 years who can accept capital value fluctuations in the short to medium term to achieve a higher rate of return over the longer term.

**Philosophy** - The Discretionary Portfolio Manager believes that active management can add value and that an intensively managed 'high alpha, multi-cap' approach can provide strong risk-adjusted returns over the longer term so the portfolio is run in line with that view.

**Strategy** - The portfolio uses a multi-asset approach, primarily investing in investment funds to provide exposure to a wide range of asset classes which can include equities, fixed interest, property, commodities, alternatives and cash. This is expected to provide more consistent, risk-adjusted returns over the longer term than a strategy based on a single asset class.

## Asset Allocation\*

## Volatility

	Actual 1Y	Actual 3Y
Smartgrowth 4 GBP	3.75%	4.08%
