

# Smartindex 2 - OS

Monthly Factsheet as at 30 November 2018

## Objective, Philosophy and Strategy

**Objective** - The portfolio aims to achieve consistent returns in excess of those available on cash deposits for a given risk profile over the medium term. Suitable for clients who are willing to accept a level of capital security slightly lower than could be achieved by investing in a cash deposit account from a high street bank, in order to achieve superior returns.

**Philosophy** - The portfolio follows a conservative investment strategy and will typically have a significant exposure to cash and fixed interest investments. To ensure the same risk profile is maintained, the portfolio has carefully designed risk controls and will be managed to a specific volatility target and within a defined volatility range.

**Strategy** - The portfolio uses a multi-asset approach, primarily investing in investment funds to provide exposure to a wide range of asset classes which can include equities, fixed interest, property, commodities, alternatives and cash. Exposure to these asset classes will be sought predominately, although not exclusively, through low cost passive strategies. Where appropriate, exposure will be taken to active managers.

## Asset Allocation\*

## Volatility

	Actual 1Y	Actual 3Y
Smartindex 2 GBP	2.17%	2.55%
IA Mixed Investment 0-35% Shares TR	2.13%	2.56%
