

Smartgrowth 11 - OS

Monthly Factsheet as at 30 November 2018

Objective, Philosophy and Strategy

Objective - The portfolio aims to achieve consistent returns for a given risk profile, over the longer term, from a diversified portfolio offering exposure to a wide range of asset classes. This portfolio is suitable for clients with a time horizon in excess of five years, who wish to grow their investment above inflation and who are prepared to accept capital value fluctuations in the short and medium term in order to achieve an acceptable rate of return over the longer term

Philosophy - The portfolio follows an aggressive growth investment strategy and will predominantly have exposure to equities. To ensure the same risk profile is maintained, the portfolio has carefully designed risk controls and will be managed to a specific volatility target and within a defined volatility range.

Strategy - The portfolio uses a multi-asset approach, primarily investing in investment funds to provide exposure to a wide range of asset classes which can include equities, fixed interest, property, commodities, alternatives and cash.
